EDUCATION

Bachelor of Technology in Computer Science Engineering

Aug 2024 – June 2028

Vignan's Institute of Information Technology, Duvvada

PROJECTS

SkillMap — Digital Worker-MSME Connect Platform

- Built a digital platform connecting local skilled workers with MSMEs, bridging the gap between job seekers and employers.
- Implemented location-based search, worker profiles with skills & availability, and direct worker-employer communication.
- Developed admin monitoring & verification system; reduced hiring time and improved employment opportunities.

Smart Crop Recommendation System

- Built an ML application recommending suitable crops based on soil nutrients and environmental conditions.
- Processed datasets including rainfall, temperature, nitrogen, phosphorus, and potassium levels.
- Developed an interface for users to input environmental parameters and receive real-time crop suggestions.

Visitor Management System

- Developed a web-based system to track and manage visitor entries, check-in/check-out, and host notifications.
- Built an admin dashboard for visitor logs, approvals, and reports with role-based access control.

TECHNICAL SKILLS

Languages: Java, JavaScript

Frontend: HTML, CSS

Database: MySQL

Tools: Git, GitHub, VS Code, Cursor

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming

COMPETITIVE PROGRAMMING

- LeetCode: 100+ problems solved | Top 40% globally | Profile: leetcode.com/u/suryamalla
- CodeChef: 190+ problems solved | Rating: 1054 | 50+ contests | Profile: codechef.com/users/surya189489

ACADEMIC & TECHNICAL ACTIVITIES

- Practicing Data Structures and Algorithms to improve problem-solving and analytical skills.
- Actively learning and applying programming concepts through coding practice and personal projects.
- Exploring web development technologies and building practical applications.

CERTIFICATIONS

- Python – Cisco Networking Academy
- HTML, CSS & JavaScript Essentials – Cisco Networking Academy
- Database Management Systems – Infosys Springboard
